

METALSILK

Metalsilk is an authentic and unique collection in its genre. It reminds the brightness of the metal, the roughness of the raw stone and the kaleidoscope geometry, highlighting spaces and creating new surfaces, to light up and give a distinctive sign to the ambient.

TECHNICAL FEATURES

Metalsilk is a stylish and modern collection realized with a unique technique that involves two phases: a non woven surface is laminated with a silky fabric and then it is laser-engraved, to bring out an impressive luminescent effect, between shiny designs and an opaque background. The final result is extremely original and refined. The product, according to the different reflection of the light, changes in a spectacular play of light and dark, and it makes alive the wall of your ambiances. We suggest to use a front light to underline this effect that makes the product a perfect fusion of metals with silk. A final touch of refinement is given by the particularity of the designs, inspired from different elements, such as the sound wave, oxidation of metals, casting paint, tracing an industrial style in a more elegant key.

ABOUT THE COMPANY

In few years Texam Home, thanks to its creative philosophy based on "Research never ends", has become a leading brand on the high-end of wallcovering's market. Infact, our brand embodies a resume of innovative high technology, exclusive materials and a unique style, that stands out from the masses. This harmonic mix permits, every year, to create remarkable and cutting-edge products, which express themselves in timeless astonishing collections. Another essential aspect of Texam Home's creations is the feeling that the material gives; it is perceived as something completely natural and organic, avoiding any industrial effect. All the wallpaper's surfaces are designed to obtain a three dimensional effect, to reshape rooms and locations, in order to nullify the optical barrier of the wall, giving vitality to the whole space thanks to a perception of infinity. The technical skills, unified with the brilliant innovations, brought by a qualified creative team, ensure to the customers top level products, which are always precursors of fashion in the wallcovering's world.
