

Avenue—Up

Avenue-Up is a vertical upright system that can be used to create wall systems or systems in the middle of a room. The uprights, made of Black or Bronze extruded anodized aluminium, feature a rounded cross-section. This shape gives them a smooth appearance, made lighter at the foot height with adjustable pushers. The uprights can be combined with base and wall units in the Avenue System, wooden shelves, aluminium and glass trays with integrated light, and open elements. The upright can be used as a mirror or TV stand, even on its own, or wall- or ceiling-mounted. It can also incorporate a vertical LED light and a TV cabling system.

DESIGN ruga.perissinotto & Sciuto Architetti

Avenue-Up è un sistema a montanti verticali con cui realizzare composizioni a parete o a centro stanza. Caratteristica dei montanti, in estruso di alluminio anodizzato Nero o Bronzo, è la sezione curva. Una forma che li rende visivamente morbidi, ulteriormente alleggerita all'altezza di piedi e spintori regolabili. Ai montanti si abbinano basi e pensili del sistema Avenue System, mensole in legno, vassoi in alluminio e vetro con luce integrata, elementi a giorno. Il montante può essere usato come supporto per lo specchio o per la TV, anche da solo, installato a parete o a soffitto. Inoltre, può integrare una luce a LED verticale e il sistema di cablaggio per la TV.

ruga.perissinotto & Sciuto Architetti

The ruga.perissinotto studio was established after a meeting between Alessandro Ruga and Carlotta Perissinotto in London in 2010. Inspired by a versatile approach to design issues, they collaborate with various companies in the furniture district.

The Sciuto Architetti studio, founded by Pierangelo Sciuto in 1988, is renowned for a special focus on research and changing trends.

Lo studio ruga.perissinotto nasce dall'incontro tra Alessandro Ruga e Carlotta Perissinotto, avvenuto a Londra nel 2010. Animato da un approccio trasversale alle tematiche progettuali, collabora con diverse aziende del distretto del mobile.

Lo studio Sciuto Architetti, fondato da Pierangelo Sciuto nel 1988, si caratterizza per la particolare attenzione alla ricerca e all'evoluzione dei trend.
