ITA

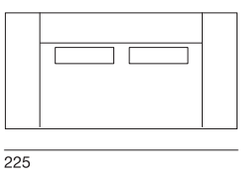

Il concept che ha dato vita al sistema di sedute Martin trova la sua origine nel viaggio. Martin è un'isola con un piede nascosto rispetto alla base che lo rende sospeso e leggero nonostante le dimensioni generose. Collezione dalle linee eleganti enfatizzate dalla sottile base e dallo spesso cuscino di seduta; schienale e braccioli sono caratterizzati da imbottiture generose, che aumentano la sensazione di comfort. Il sistema di sedute Martin comprende divani, laterali, laterali angoli, angoli, dormeuse, chaise longue e un angolo terminale 135° ad impreziosire ulteriormente la collezione che abbinati a piacere offrono innumerevoli combinazioni. I laterali sono disponibili con un pregiato piano di appoggio in legno listellare impiallacciato rovere tinto nero. Ogni modulo dispone di cuscini schienali predefiniti in base alle dimensioni del modulo (80x47, 60x47, 50x47) per dare il massimo comfort. Il rivestimento è completamente sfoderabile ad eccezione della versione in pelle. Su richiesta con supplemento di prezzo è possibile acquistare un vassoio e una scatola in cuoio color testa di moro o naturale. Fusto in legno massello e multistrato, imbottito in poliuretano espanso indeformabile a densità differenziata. Prerivestimento con tela di cotone accoppiata con fibra poliestere. I piedi sono verniciati colore nero. Cuscini-Schienale: strutturati in microfibra con inserto in poliuretano. I cuscini di seduta sono in poliuretano e PrimaLoft® Bio™. Tutte le imbottiture sono interamente prerivestite in tela bianca.

ENG

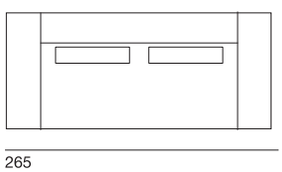

The concept that gave life to the Martin seating system has its origins in travel. Martin is an island with a foot hidden from the base which makes it suspended and light despite its generous dimensions. Collection with elegant lines emphasized by the thin base and the thick seat cushion; backrest and armrests are protruding from generous padding, which extend the feeling of comfort. The Martin seating system includes sofas, laterals, side corners, corners, day beds, chaise longues and a 135° end corner to further embellish the collection which can be combined as desired offering countless combinations. The side piece are available with a precious table top in black-stained oak. Each module has predefined back cushions based on the dimensions of the module (80x47, 60x47, 50x47) to give maximum comfort. The upholstery is completely removable except for the leather version. Upon request, with up charge, it is possible to purchase a tray and a box in dark brown or natural leather. Frame in solid wood and plywood, padded with non-deformable polyurethane foam of different densities. Pre-covering with cotton canvas coupled with polyester fibre. The feet are painted black. Structured in microfiber with polyurethane insert. The seat cushions are in polyurethane and PrimaLoft® Bio™. All padding is fully pre-upholstered in white canvas.
