Pivot Table Lamp - Bronze

Product Description

Pivot is a simple and yet refined lamp design, that gives the user the ability to project light on a certain object or space. Pivot can be sed to highlight all kinds of objects, such as art pieces, sculptures, flowers, and plants. Pivot can also be used to create a warm and inviting atmosphere in the room, and especially to play with the contrast between light and shadows.

Pivot consists of a rotating aluminum lampshade, mounted directly to a square shaped Iron base. Both objects are designed with precision to fit each other and enable the lampshade to rotate smoothly. The lamp is plated in a brushed bronze colour, to create a warm and inviting light. Pivot is the French word of an object turning around its own axe or centre point.

Designer Description

Tommy Hyldahl and Kristian Sofus Hansen intertwine their distinct sensibilities to create designs where storytelling, materiality, and timeless form meet in quiet harmony.

With a background in fashion, Tommy brings an intuitive eye for trends, colors, and textures. His process is one of layering histories, blending details and references from past design periods and reimagining them into something fresh and contemporary. Each collection unfolds as a narrative, evolving from concept to creation, with every element contributing to a greater story.

Kristian, who has lived and studied in Japan, seeks to unite Japanese aesthetics with Danish design, creating a characteristic twist on simplicity itself. His work is defined by the search for subtle, original details that elevate each piece with a unique signature. Drawing inspiration from art and sculpture, his creative process unfolds in new and exciting ways, always striving to craft designs that are both functional and timeless.

Together, they craft design that transcends time, poetic yet practical, expressive yet enduring.

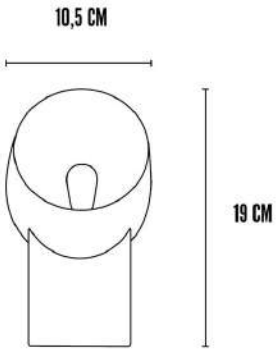

Pivot Table Lamp - Bronze

Family Description Text

Pivot is a refined yet simple lamp that transforms light into a subtle design element. Its rotating shade lets you direct illumination with ease, highlighting artworks, sculptures, flowers, or plants, while also shaping a warm and inviting atmosphere. By adjusting the angle, Pivot plays with the balance of brightness and shadow, adding depth and character to any space.

The lamp is composed of a rotating aluminum shade set on a square iron base. Designed with precision, the two elements fit seamlessly together, allowing the shade to move smoothly and gracefully.

Its name comes from the French word pivot, meaning to turn around one's own axis. True to its name, Pivot embodies motion, focus, and understated elegance.

Color Description

Hand Brushed Bronze carries a warm grey metallic tone, softened by delicate brushstrokes that create a smooth matte surface. The finish reveals subtle variations in texture and depth, giving it a calm and understated character. Elegant and versatile, it bridges the richness of metal with a modern, architectural expression.

Pivot Table Lamp - Bronze

Maintenance Guide Description

Hand-brushed plated aluminium is sealed with a protective matte coating that preserves its soft sheen and quiet variations in texture. To maintain the beauty of your light, simply dust or wipe the surface with a soft cloth, using a little water only when necessary and always drying immediately afterwards. Abrasive cloths, brushes, solvents or strong detergents should be avoided, as they may damage the delicate brushed finish and its protective layer. The subtle variations in tone are intentional, a natural result of the hand-brushing process, and are not meant to be polished away. Always switch off and unplug the lamp before cleaning, and avoid exposing it to excessive humidity or direct contact with water. With gentle care, the surface will retain its richness and timeless character, carrying the traces of craftsmanship that make each piece unique.

Materials Description

Hand-brushed plated aluminium reflects the meeting of craftsmanship and time. Each piece is plated and then brushed by hand, creating subtle variations in tone and texture that make every object unique. A final matte coating softens the sheen into a silky finish, enhancing the surface with quiet movement and depth.
