Tommy Hyldahl

Clam Wall Lamp - Oxidized

Product Description

The Clam Wall Lamp is a tribute to the harmony of simplicity and the artistry of light. The wall lamp, with its singular shade, casts a poetic and atmospheric glow.

Inspired by the serene aesthetics of Japanese design, each lamp embodies a quiet elegance, where light gently reflects off delicately curved metal screens, infusing the space with warmth and tranquillity.

Ideal for hallways, bedrooms, or living spaces, the Clam Wall Lamp creates a warm, atmospheric backdrop while adding a sculptural touch to the wall. Its soft glow makes it especially well-suited for bedside lighting and entryways blending functionality with understated elegance.

Meticulously crafted, the wall lamp in oxidized aluminium gives a distinctive character, ensuring a seamless complement to any interior. Hand-brushed with precision, every plated metal body exudes artisanal sophistication, a true testament to the masterful craftsmanship that defines the Clam lamps.

Designer Description

Tommy Hyldahl and Kristian Sofus Hansen intertwine their distinct sensibilities to create designs where storytelling, materiality, and timeless form meet in quiet harmony.

With a background in fashion, Tommy brings an intuitive eye for trends, colors, and textures. His process is one of layering histories, blending details and references from past design periods and reimagining them into something fresh and contemporary. Each collection unfolds as a narrative, evolving from concept to creation, with every element contributing to a greater story.

Kristian, who has lived and studied in Japan, seeks to unite Japanese aesthetics with Danish design, creating a characteristic twist on simplicity itself. His work is defined by the search for subtle, original details that elevate each piece with a unique signature. Drawing inspiration from art and sculpture, his creative process unfolds in new and exciting ways, always striving to craft designs that are both functional and timeless.

Together, they craft design that transcends time, poetic yet practical, expressive yet enduring.

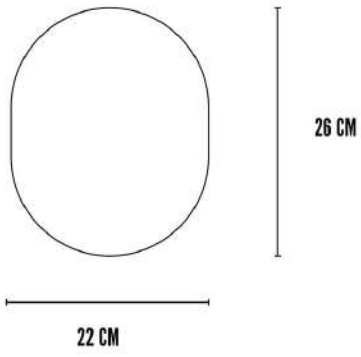

Clam Wall Lamp - Oxidized

Family Description Text

The Clam Series is a tribute to the harmony of simplicity and the poetry of light. The table lamp, with its two gracefully opposing shades, composes a delicate balance of direct and indirect illumination. The wall lamp, with its singular curved shade, offers a softer glow, atmospheric and serene.

Inspired by the quiet beauty of Japanese design, each lamp carries an understated elegance, as light gently reflects across curved aluminium screens, infusing the room with warmth and tranquillity. Every line, every surface, speaks of meticulous attention, a testament to the craftsmanship that gives the Clam Series its timeless presence.

Color Description

Oxidized Aluminium is defined by a raw, industrial character. Through an intense chemical treatment, the surface develops irregular markings that make each piece unique. The finish resembles architectural concrete tactile, dramatic, and alive with texture.

Clam Wall Lamp - Oxidized

Maintenance Guide Description

Our lamps finished in oxidized aluminium are crafted to highlight the natural depth and variation of the surface, giving each piece a unique and timeless character. To preserve their beauty, careful and minimal maintenance is essential.

The oxidized surface should be cleaned only with a soft, dry microfiber cloth to remove dust. Do not use water, as moisture may react with the oxidized finish and alter its appearance. Avoid abrasive pads, harsh detergents, solvents, or metal polishes since these can strip away or damage the oxidized layer.

Because the oxidized effect is a living finish, subtle changes in tone and texture may occur naturally over time. This patina is part of the material's character and should be embraced as a sign of its authenticity.

Always switch off and unplug the lamp before cleaning and avoid placing it in areas with high humidity or direct water exposure. With simple, gentle care, the oxidized aluminium will retain its refined depth and natural patina, ensuring the lamp remains expressive and enduring for years to come.

Materials Description

Oxidized aluminium is created through a brief but intense acid bath that transforms the surface into something raw and tactile. Each piece emerges with irregular markings, scars of creation that can never be repeated. The result is a surface that feels industrial and expressive, reminiscent of architectural concrete stark, dramatic, and alive with texture.
